

How to Select a Research Topic for your Paper

Valerio Velardo

Topic selection guidelines

Topic selection guidelines

- Pick a topic you're interested in

Topic selection guidelines

- Pick a topic you're interested in
- Pick a topic that has the right scope

Not too broad

Not too broad

Generative system that
can create music in any
known musical style

Not too broad

Generative system that
can create music in any
known musical style

Generative system that
can create melodic
improvisations in a jazz
style

Not too narrow

Not too narrow

Composer detection
system for Italian
composers who lived in
Rome between
1860-1880

Not too narrow

Composer detection
system for Italian
composers who lived in
Rome between
1860-1880

Composer detection
system for Romantic
composers

Topic selection guidelines

- Pick a topic you're interested in
- Pick a topic that has the right scope
- Pick a topic within the [conference](#) / [journal](#)'s themes

Topic selection process

Topic selection process

Topic selection process: Operational tips

1. Brainstorm concepts around your topic
2. Develop a research question
3. Decide research approach
4. Read literature and other resources

Brainstorming concepts

Music generation

Melodies

Jazz

Moods

Improvisation

Neural network

Develop a research question

WHAT'S A RESEARCH QUESTION?

**A QUESTION BASED ON A TOPIC THAT
A RESEARCH PROJECT SETS OUT TO ANSWER**

Develop a research question

- Feasible
- Interesting
- Novel
- Ethical
- Relevant

Develop a research question

- **Feasible**
- **Interesting**
- **Novel**
- **Ethical**
- **Relevant**

Brainstorming concepts

Music generation

Melodies

Jazz

Moods

Improvisation

Neural network

Develop a research question

Is it possible to build a neural net
that improvises Jazz melodies
based on moods?

Decide research approach

Decide research approach

Empirical - coding

User experiments

Takeaway points

- Pick a topic that isn't too broad / narrow
- Pick a topic in line with conference / journal themes
- Select a topic iteratively
- Brainstorm keywords to come up with a topic
- Develop a research question associated to the topic
